### Ravitaillement / Feeding

Pour l'étape 5, le ravitaillement sera ouvert à partir du kilomètre 30 et sera terminé à 20 kilomètres de l'arrivée.

For stage 5, feeding will be open from kilometer 30 and will be closed at 20 kilometers from the finish.

Az 5. szakaszon a frissítés a 30. kilométertől lesz engedélyezett, és a céltól számított 20 kilométernél zárul.

À la suite de la décision de l'Organisation, prise pour des raisons de sécurité également liées aux prévisions météorologiques défavorables, il a été décidé de modifier le parcours de la 4e étape en le réduisant de 40 km.

Le parcours modifié a été communiqué aux équipes par la mise à jour de tous les systèmes, y compris Veloviewer, et a fait l'objet d'une large diffusion auprès des médias ainsi que sur le site officiel de la course.

Par la suite, le protocole météo a été convoqué pour ce matin avec la participation de toutes les parties concernées ; la décision prise a été ratifiée à l'unanimité, tout en reportant à la course toute décision supplémentaire qui aurait pu s'avérer nécessaire en cas de conditions météorologiques particulières mettant en danger la sécurité des athlètes.

Durant les phases finales de la course, à 6 km du passage, également à la suite de plusieurs chutes, dont certaines ont nécessité l'hospitalisation des athlètes, le directeur de l'organisation, en accord avec le Président du Jury, a estimé que les conditions ne permettaient plus la poursuite de la course. Il a donc été décidé de supprimer le dernier tour du parcours, réduisant ainsi la course de 20,6 km et avançant l'arrivée finale.

Compte tenu du caractère exceptionnel de la situation, il n'a été possible de consulter le groupe du protocole météo qu'après l'arrivée.

Following the decision taken by the Organisation for safety reasons, also due to adverse weather forecasts, it was decided to modify the route of Stage 4 by shortening it by 40 km.

The modified route was communicated to the teams through updates to all systems, including Veloviewer, and was widely circulated to the media and published on the official race website.

Subsequently, the weather protocol meeting was convened this morning involving all interested parties, and the decision taken was unanimously ratified, while postponing any further decision during the race should particular weather conditions arise that could endanger the riders' safety.

During the final phases of the race, at 6 km from the passage point, also following several crashes, some of which required the hospitalization of riders, the Director of the Organisation, in agreement with the President of the Commissaires' Panel, considered that the conditions no longer allowed the race to continue safely. It was therefore decided to remove the final lap of the course, shortening the race by 20.6 km and bringing forward the final finish.

Due to the exceptional nature of the situation, it was only possible to consult the weather protocol group after the finish.

A Szervezőség biztonsági okokból, valamint a kedvezőtlen időjárás-előrejelzések miatt úgy döntött, hogy a 4. szakasz útvonalát módosítja, és azt 40 km-rel lerövidíti.

A módosított útvonallról a csapatokat valamennyi rendszer – beleértve a Veloviewert is – frissítésével tájékoztatták, továbbá széles körben közzétették a médiában és a verseny hivatalos honlapján is.

Ezt követően a mai reggelre összehívták az időjárás protokollülést valamennyi érintett fél bevonásával, a meghozott döntést egyhangúlag megerősítették, ugyanakkor a verseny közben esetlegesen szükségessé váló további döntéseket arra az esetre halasztották, ha különleges időjárás körülmények veszélyeztették volna a versenyzők biztonságát.

A verseny végső szakaszában, az áthaladási ponttól számított 6 km-nél, több bukást követően – amelyek közül néhány a versenyzők kórházi ellátását tette szükségessé – a versenyigazgató a zsűrielnökkel egyetértésben úgy ítélte meg, hogy a verseny biztonságos folytatásának feltételei már nem állnak fenn. Ezért úgy döntöttek, hogy a pálya utolsó körét törlik, így a versenyt 20,6 km-rel lerövidítették, és a célba érkezést előrébb hozták.

A helyzet rendkívüli jellegére tekintettel az időjárás protokollcsoporttal csak a célba érkezést követően volt lehetséges egyeztetni.
